:

Attachments to be submitted with the application form:

1. Current area of research described in no more than 600 words. The applicant should provide sufficient background of their current activities and findings to make it clear why the proposed visit will enhance their research activities/findings.
2. Proposed research at visited institution, no more than 400 words.
3. Proposed supervisors endorsement of visit.
4. Current supervisors endorsement of visit ***including comment on financial and scientific viability***.
5. *Curriculum Vitae* of not more than two pages excluding list of publications.

I agree to write a report to be published in *Phytogen* on the activities carried out during the visit, to be submitted to the Secretary of ASPS within one month of the end of the visit. When communicating the results of the research I agree to acknowledge the Australian Society of Plant Scientists, the R.N. Robertson Fund and the University of Western Australia for administering the Fund.
