Poster Judging Procedure:

- The judges will come to your poster only during your allocated poster session
- During the poster session slot, each participant should be ready in front of their poster to answer all questions from the judges.
- You will be given about 5 minutes to present your poster **including questions** and answers. Judges may pose questions during the evaluation of the poster.
- Judges will evaluate the scientific quality and novelty, and the significance of the work
- Judges will evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research.
- There will be more than one judge to evaluate the posters.
- The winners will be announced at the closing ceremony of the conference.
- Apart from the judging time you may also be present at the poster to share your research with interested delegates.

Some suggestions when preparing your poster:

- Present numerical data in the form of graphs, rather than tables. If data must be presented in table-form, keep it simple.
- Visuals should be simple and bold.
- Avoid acronyms and extensive mathematical notations as much as possible.
- Avoid submitting compactly packed, high word-count posters.
- Organize your poster into subdivisions, e.g., Introduction, Methods, Results, Discussion, Conclusions, and Literature Cited (avoid using too many citations).
- Use visual aids, where appropriate, when describing the methodology
- Use bright colours to enhance the detail.
- Text should be readable from 1.5m distance.
- Besides your project, the text could also include future research plans or questions.
